

Industrial, inc.

FLUID SEALING SPECIALISTS SINCE 1964

SERVICING THE FLUID SEALING REQUIREMENTS OF THE CHEMICAL, POWER, PHARMACEUTICAL, PAPER & MUNICIPAL INDUSTRIES.

FLOWERVE FLOW SOLUTIONS DIVISION IS THE RESULT OF THE MERGER OF DURAMETALLIC, BW/IP, FIVE STAR, PAC-SEAL, & PACIFIC-WEITZ

- * Single and dual cartridge seals
- * Gas barrier cartridge
- * Mixer platform
- * Component assemblies
- * Bearing isolators
- * Seal coolers & reservoirs
- * Repair of all seal types
- * Educational Seminars
- * Couplings

SINCE 1887 THE GARLOCK PACKING COMPANY HAS PROVIDED PACKING & GASKET MATERIALS TO INDUSTRY THROUGHOUT THE WORLD

- * Compressed fiber gasketing
- * Metallic gaskets
- * Rubber
- * PTFE
- * Braided packing
- * Expansion joints
- * Die cut gaskets to spec
- * Educational seminars

ROYAL PURPLE COMBINES THE HIGHEST QUALITY SYNTHETIC BASE OILS WITH ITS PROPRIETARY SYNERLEC ADDITIVE TECHNOLOGY

- * Synthetic FDA barrier fluids
- * Synthetic gear, bearing & compressor oils
- * Synthetic greases & lubricants
- * Synthetic escalator & elevator oil

- Fluid Storage and Dispensing
- Tanks and Reservoirs
- Precision Fabrication

P-M INDUSTRIAL, INC. 840 LINE STREET, AREA 3, EASTON, PA 18042

EMAIL sales@p-mindustrial.com

- Sewage/Wastewater Pump
- Dewatering Pump
- Cutter Pump

NOMAD

- Air Operated Diaphragm Pumps (AOD)

- Polypropylene
- PVDF
 - Aluminum
 - Cast iron
- Stainless Steel

- S.S. and Nickel Alum. Bronze
- End Suction + Self Primers - Marine and Sanitary Applications

- NON-METALLIC PUMP BEARINGS
- INDUSTRIAL BEARING APPLICATIONS
- HYDRO-TURBINE
- SCREW CONVEYOR BEARINGS
- MARINE BEARING

Motors

AC, DC, ODP, TEFC & X-Proof
Horizontal, C-Face, JM, JP
Vertical – Solid & Hollow Shaft

SEAL RESERVOIRS

- API Plan 52 and 53 Seal Reservoirs
- Lube Skids which include Heat Exchangers, Filters, Reservoirs, Instrumentation, Control Panels, etc.
- Standard and Customized Packages

Engineering Services and Partnering Programs

- Inventory Standardization And Consolidation Programs for Seals, Couplings, Pumps, Packing & Gaskets
- Equipment Failure Analysis and Tracking
- Partnering & Primary Source Programs
- Equipment Databases
- Rotating Equipment Modification for Reliability Improvement
- Integration Programs

SOLUTIONS FOR TOUGH BEARING PROBLEMS

- Self Lubricating
- No Grease or Oil
- High Temperature
- Operates from -450° to 1500°F (-240° to 800° C)
- Low Coefficient of Friction
- Runs Submerged
- Chemical Resistant
- Tolerant to Dust
- FDA accepted
- Outperforms Plastics
- No Oil Contamination
- Reduced Downtime
- Non-galling

Pump Repairs

Flexible Couplings

- METASTREAM & POWERSTEAM Couplings
- High Performance Applications
- Cooling Tower Couplings w/ Patented Breakaway Disc Pack Design
- Axially and Radially Split Dry Disc Pack Couplings
- CPLR & CPAT Rigid Coupling for Vertical Pumps

- Flexible Couplings
- Disc Couplings
- Grid Couplings
- Jaw (spider) Couplings

- Shim Kits
- Maintenance Packages

UNIQUE POLYMER SYSTEMS.COM

Not just a repair, an upgrade, it's the engineers choice.

- Ceramic Coatings
- Repair materials
- Epoxies
- Rubber Repair
